MYSTERIUM DRACONIS

Stage One - *Scholomance: The Night School*

A TWO-DAY EVENT

The Royal and Imperial Dragon Court and Order, in conjunction with the Stargate Mystery School, is hosting an illuminating weekend lecture series. The Dragon Court, led by HRH Prince Nicholas de Vere von Drakenberg, is an ancient order charged with preserving the royal Dragon bloodline, the secret Dragon wisdom, and the sacred Dragon tradition. The Dragon bloodline has been elsewhere described as the "Grail bloodline", and the Dragon kings are the same as the popularly-known "Grail kings", which the Merovingians were among.

The Dragon Court can first be identified in Egypt under the patronage of the priest-prince Ankhfn Khonsu at about 2170 BC. It was subsequently established more formally as a pharaonic institution by the twelfth dynasty Queen Sobekh Nefru in 1785 BC. The Court was re-formed in 1408 by Emperor Sigismund von Luxemburg, King of Hungary, later to become Holy Roman Emperor in 1433. The Dragon kings whom the court has supported have rightfully ruled many nations and empires throughout history. In the case of England, the last legitimate Dragon monarch was Richard III.

This weekend lecture series is named after the legendary school of alchemy and the occult which was attended by Vlad Dracula of Romania, who was one of the Dragon Court's most illustrious members. This is just the first stage in an ongoing process: the initiation of the **Dragon Mystery**; the unveiling of the **Dragon Wisdom**; and the manifestation of the **Dragon Kingdom**.

The leaders of the Dragon Court are holding this event to, among other things, promote Nicholas de Vere's long-awaited and recently published book, *The Dragon Legacy: The Secret History of an Ancient Bloodline*. This is a down-to-earth account of a sacred royal family

Lots of time to talk with the speakers after their presentations...

whose roots go back to the times of the Egyptian Pharaohs, and to the Sumerian Gods before them. It paints a picture of the beginnings of the Grail bloodline in an antediluvian civilization, with a super-human, red-haired race of Grail kings that conquered and ruled over the primitive hordes of the ancient world, with tribes on each continent. These kings guided the destiny of all civilized man. They were overseers, "navigators", directing the affairs of the world with the Solomonic wisdom inherent in their blood. They created all of the traditions, customs and institutions upon which civilization depends.

To the members of the Dragon Court, it is the blood itself, which provides the basis for the "divine right" of Dragons to be the overseers of society. The most amazing of all, they believe that the sacred "Grail" or Dragon DNA contains genes specifically programmed for "magic." *The Dragon Legacy* has illustrated for the first time the scientific principles behind the effective use of ritual magic, and why some "magicians" are more effective than others. It explains the significance of the "Grail bloodline", irrespective of modern pseudo-intellectual theories and religious doctrines.

More than this, it reveals the true import behind age-old tales of Vampires, Elves, and Fairies. It gives a reasonable explanation for the otherwise inexplicable course of man's history, all the way back to the golden age of the gods, and man's fall from the grace of the natural state of affairs. It lays down the principles behind a fair and ordered society, something we once, during the golden age, took for granted. It sets the foundation for a true understanding of man's natural hierarchy, and issues a death warrant for civilization should this fail to occur.

There is such a thing as power for power's sake; and power, in the civic realm, is based on sovereignty, which comes from the blood.

These subjects and more will be addressed within this seminar. This is sure to be an overwhelming flood of fascinating information. Prepare yourself to be **baptized** with a **wisdom** truer than truth. Prepare yourself to ride the Dragon!
